Summary

Computer Science undergraduate at PIEMR with hands-on experience in web development, AI-powered applications, and competitive hackathons. Founder & President of DevLeague and AWS Student Builder Group Leader, passionate about building impactful software solutions, leading technical communities, and continuously learning modern technologies.

Leadership Experience

Founder & President *Apr 2025 – Present*

- Founded DevLeague (DSA Campus Chapter PIEMR), a student developer community focused on DSA, software development, and hackathons.
- Built and managed a community of 100+ students across multiple academic branches.
- Led a core team responsible for planning events, managing outreach, and organized coding competitions, technical workshops and community events.
- Mentored students in competitive programming, project development, and hackathon participation.

AWS Student Builder Group Leader *Jun 2025 – Present*

- Selected as the AWS Student Builder Group Leader at PIEMR to promote cloud learning and technical community growth.
- Guided students in exploring AWS services, cloud fundamentals, and modern development practices.
- Collaborated with student leaders to build an active technical community and encourage peer learning.

Projects

Dream2Reality AI GitHub

- Developed an AI-powered career simulation platform that helps students explore career paths through personalized recommendations.
- Built a responsive web application with an intuitive interface and AI-driven recommendation workflow.
- Designed the platform to improve user engagement through personalized career guidance.
- **Tech Stack:** React, Tailwind CSS, Python, AI APIs, Git.

Trees & Graph Visualizer GitHub

- Designed an interactive visualization tool for AVL Trees, Binary Search Trees, and Graph algorithms.
- Implemented insertion, deletion, traversal, and visualization to simplify DSA concepts.
- Built as an educational platform for students preparing for coding interviews.
- **Tech Stack:** HTML, CSS, JavaScript, Data Structures & Algorithms.

Developer Portfolio Website Live Demo

- Developed a fully responsive developer portfolio showcasing projects, leadership experience, and achievements.
- Implemented a modern UI with mobile-first responsive design.
- Optimized website performance and accessibility across desktop and mobile devices.
- **Tech Stack:** HTML, CSS, JavaScript, Tailwind CSS.

3D Shapes Calculator

- Developed a web application to calculate area and volume of multiple 3D geometric shapes.
- Designed a simple and intuitive interface for quick mathematical computations.
- Applied modular programming principles for maintainable and scalable code.
- **Tech Stack:** HTML, CSS, JavaScript, Python.

Education

2024 – 2028	**Bachelor of Technology (B.Tech), Computer Science Engineering (CSE-IoT)**	Expected 2028
	Prestige Institute of Engineering Management and Research (PIEMR), Indore	CGPA: 7.5/10
2024	**Senior Secondary (Class XII)**	73.6%
	Marthoma Public School	MP Board
2022	**Secondary (Class X)**	71.3%
	Marthoma Academy	CBSE

Achievements & Awards

- **1st Position – Wire Wars** 2025
  Circuit completion competition organized by the Department of Electrical Engineering, PIEMR.
- **2nd Position – Creovate** 2026
  National Mathematics Day software development competition conducted at PIEMR.
- **3rd Position – CodeStorm** 2026
  Programming and software development competition organized by AI Club PIEMR.
- **Top 10 Finalist – TechSprint Hackathon** 2026
  Hackathon organized by Google Developer Group (GDG) PIEMR.

Technical Skills

Programming	C++, Python
Web Development	HTML5, CSS3, Tailwind CSS, MERN Stack
AI & ML	Machine Learning, NumPy, Pandas, Scikit-learn
	Databases
Firebase, MongoDB	
Core Subjects	Data Structures & Algorithms, OOPM, Operating Systems
Developer Tools	Git, GitHub, VS Code
Soft Skills	Leadership, Problem Solving, Teamwork, Communication
